One line

> Phoenix: your home for everything APOE4.

Short description

> Your home for everything APOE4. A personalized protocol, independent guidance, and better prices on tests, supplements and devices, all in one place. Phoenix is the #1 APOE4 community optimizing their brain health: 750+ APOE4 carriers pool every experiment and result.

Newsletter or forum paragraph

> If you carry APOE4, the main genetic risk factor for late-onset Alzheimer's disease, you know the overwhelm: too much information, contradictory advice and no clear first step. Phoenix puts everything you need for APOE4 in one place. It's a community and app built by a Doctor of Pharmacy who carries two copies of APOE4. Members get a personal protocol, bloodwork read against APOE4-specific targets, expert Q&As and member prices on blood tests and supplements in the US. Phoenix earns only from memberships and never takes a fee on what members buy, so the bigger discount goes to members. Readers who join through the link below get 10% off.
